CV

I took the first steps towards my career as a photographer with my studies at the Bielefeld University of Applied Sciences (Visual Communication), where I graduated in 1996. The same year, I started my own business. Since 2002 I have been living in Osnabrück / Lower Saxony with my family.

From here I work - aside from my trips through Africa - for magazines and companies in the field of portrait, reporting, travel and industrial photography nationally and internationally.

My special bond with Africa started in 2005 with a two month long trip through the Tanzanian Province Kagera and the townships around Durban (South Africa), where I portrayed and interviewed more than 50 families, who have lost numerous relatives through the HIV pandemic. From this work resulted an intensive cooperation with different acting NGOs and a strong commitment with this continent.

My work has been recognized and honored at Unicef - Photo of the year, the Mediaprize of German Kindernothilfe and was judged on the shortlist of the Henri Nannen Prize. Since 1999 I'm represented by agency laif / Cologne.
